THE SCHOOL OF LOSS CONTROL TECHNOLOGY

“RISK” Seminars
(Risk, Identification, Solutions and Knowledge)

Residential “RISK” Series – 6 Credits - RIBO

150 Commerce Valley Drive West
Markham, ON L3T 7Z3
Tuesday, September 29, 2009 – 8:30 a.m. – 4:30 p.m.

Solid Fuel Burning Systems: From Floor Pad to Chimney, The Visual Inspection of a System

- This seminar will provide a detailed review of wood heat. Emphasis will be directed toward safety concerns and code compliance of the unit.

- Topics of discussion will focus on:
  - An overview of wood and pellet burning appliances, combination furnaces, venting, shielding and floor protection.
  - The knowledge from this session will allow participants to better understand the workings of a solid fuel burning system.

Water Damage Prevention: A Proactive Approach to Water

- This seminar will provide participants with insight into current underwriting issues and will include an overview of the Water Damage Report as an underwriting tool.

- Topics of discussion include:
  - An overview of both interior and exterior residential water hazards
  - Prevention tips to share with clients.
